## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-5, 14-24, 26, and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Jones et al (US 5,341,928).

Viewing figures 2 and 5, the upper section of the back panel 5 has pleats 8 extending into the second portion 4. A third section below the expanding second section forms a cavity bottom with the front panel 2. The second portion 4 of the back panel is capable of expanding more than the first section:

### ***Claim Rejections - 35 USC § 103***

3. Claim 25 is rejected under 35 U.S.C. 103(a) as being unpatentable over Jones.

Jones teaches the claimed device except for a bottom panel adjacent the bottom section.

The examiner takes Official notice that it is known in the bag art to provide a bag with or without a bottom panel.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to provide a bottom panel between the front and back panels of Jones. Doing so allows the bag to be self-supporting.

### ***Response to Arguments***

4. Applicant's arguments filed April 27, 2005 have been fully considered but they are not persuasive.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., the pleats are formed by just the back panel) are not recited in the rejected claims. Although the claims are

interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

The middle, or second, section of back panel 5 as seen in figure 5 is capable of expanding more than the first portion of the panel. Wherein the claims do not set forth the panels must be of some other shape than rectangular and the drawings depict a rectangular device, it is unclear why applicant asserts at page 12, paragraph 1 that the shape of the panel does not allow for expansion of a second section more than a first section.

### ***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Various prior art closures teaching features similar to those disclosed and/or claimed are cited for their disclosures.

7. In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office Actions directly into the Group at (703) 872-9306. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify

the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into Group 3720 will be promptly forwarded to the examiner.

8. It is called to applicant's attention that if a communication is faxed before the reply time has expired, applicant may submit the reply with a "Certificate of Facsimile" which merely asserts that the reply is being faxed on a given date. So faxed, before the period for reply has expired, the reply may be considered timely. A suggested format for a certificate follows:

I hereby certify that this correspondence for Application Serial No. \_\_\_\_\_ is being facsimiled to The U.S. Patent and Trademark Office via fax number (703) 872-9306 on the date shown below:
